

# Little Rose Lane Energy Park

RIVAN

## A Bold Step Towards a Fossil-Free Future

Rivan Industries is bringing forward proposals for **Little Rose Lane Energy Park**, the UK's first commercial-scale Renewable Natural Gas (RNG) facility. Located north of Blunsdon and southeast of Cricklade, this site will combine solar energy with innovative carbon capture technology to produce clean, cost-effective fuels for industries that can't otherwise be easily electrified.

*We would like to invite you to attend our public consultation events taking place on:*
